

Building the Giant's Castle Challenge

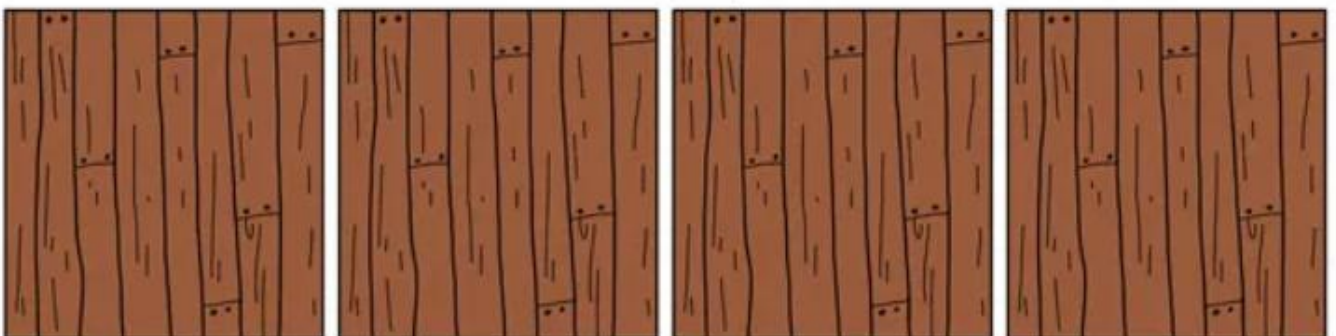

What you need:

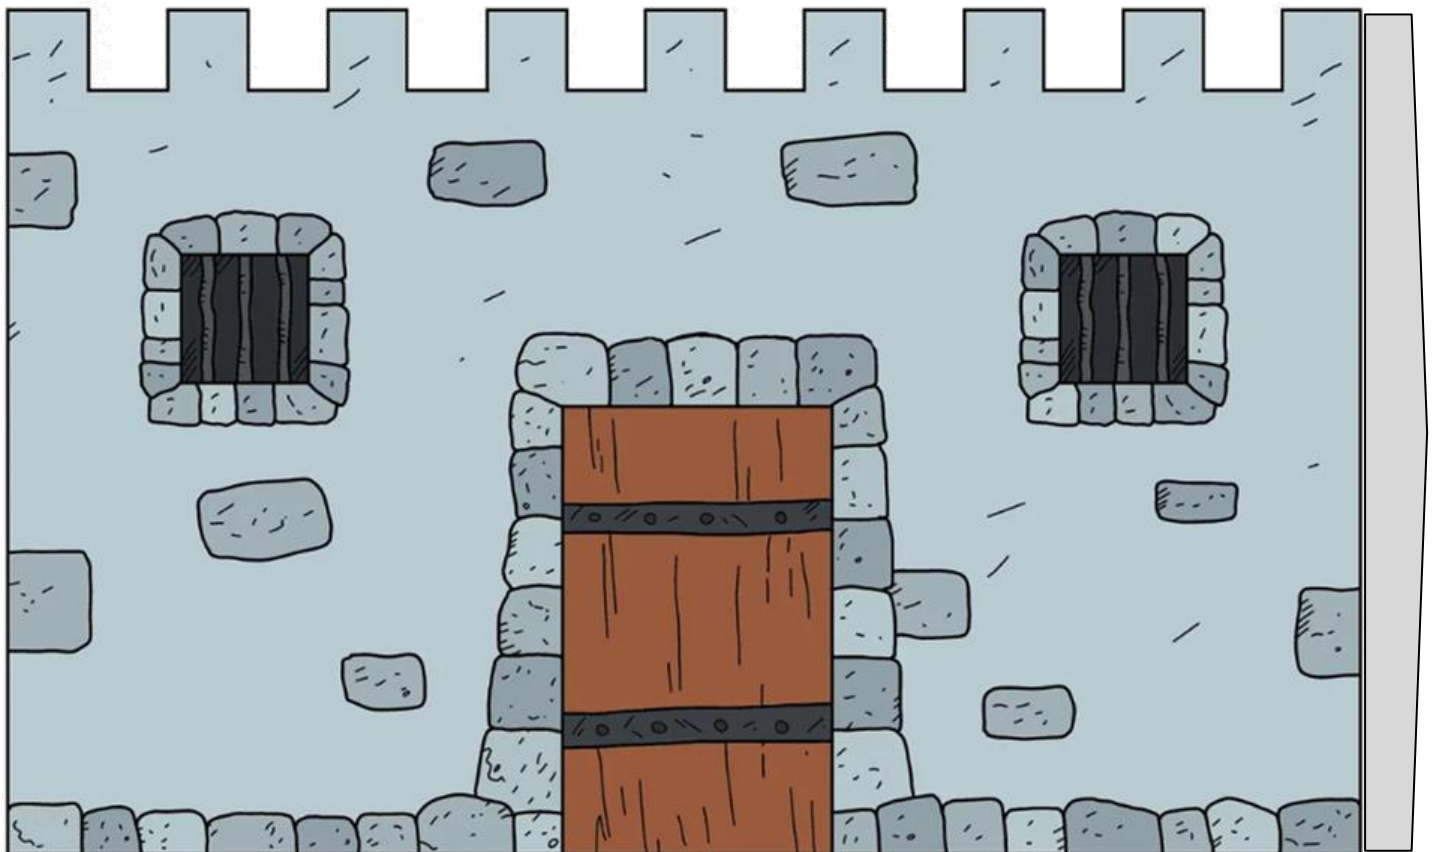

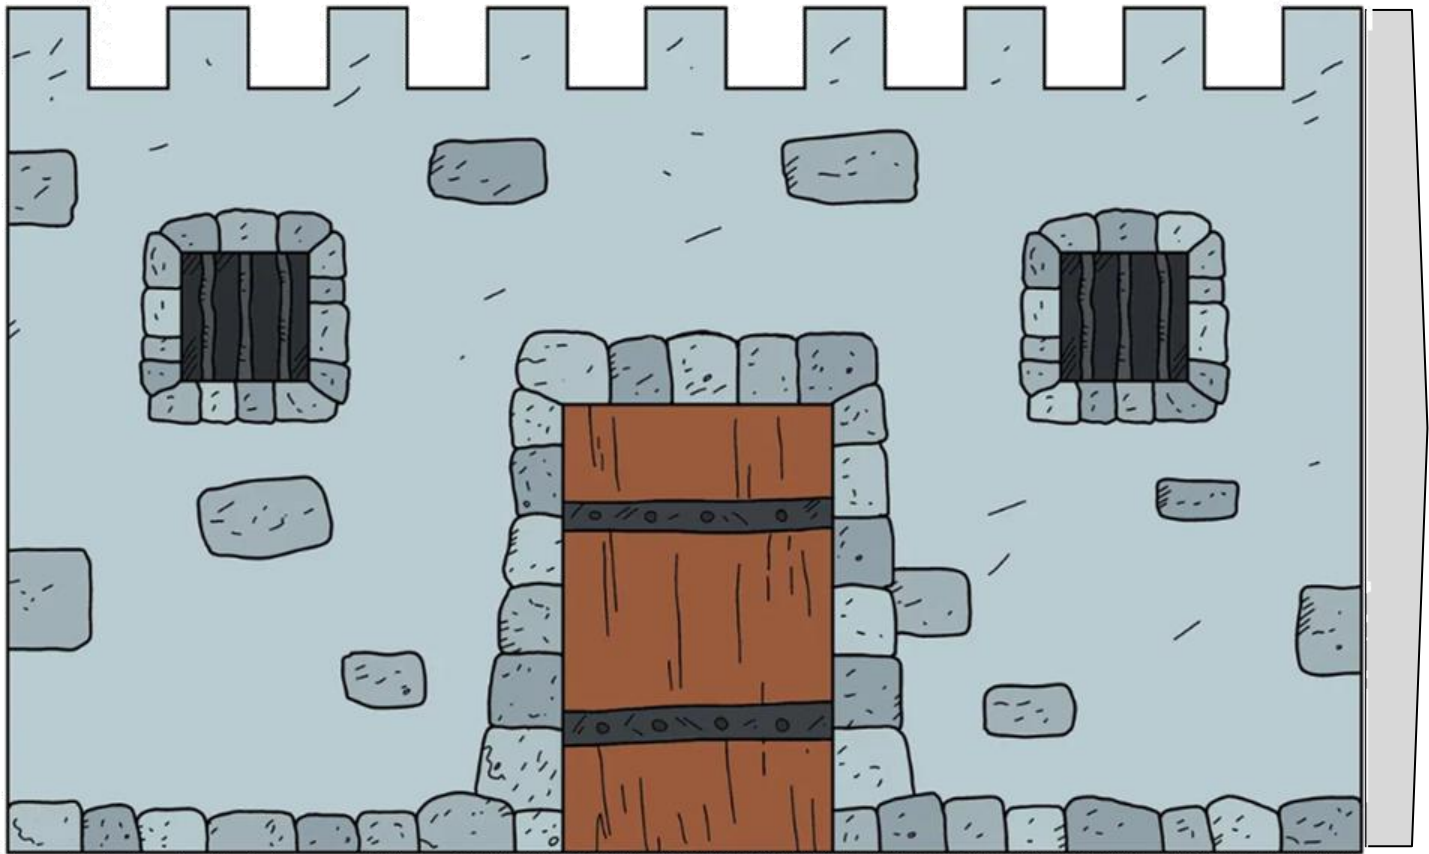

- Print out template on card or stick paper print out onto card (eg. A cereal box or similar)
- Glue or tape
- Scissors

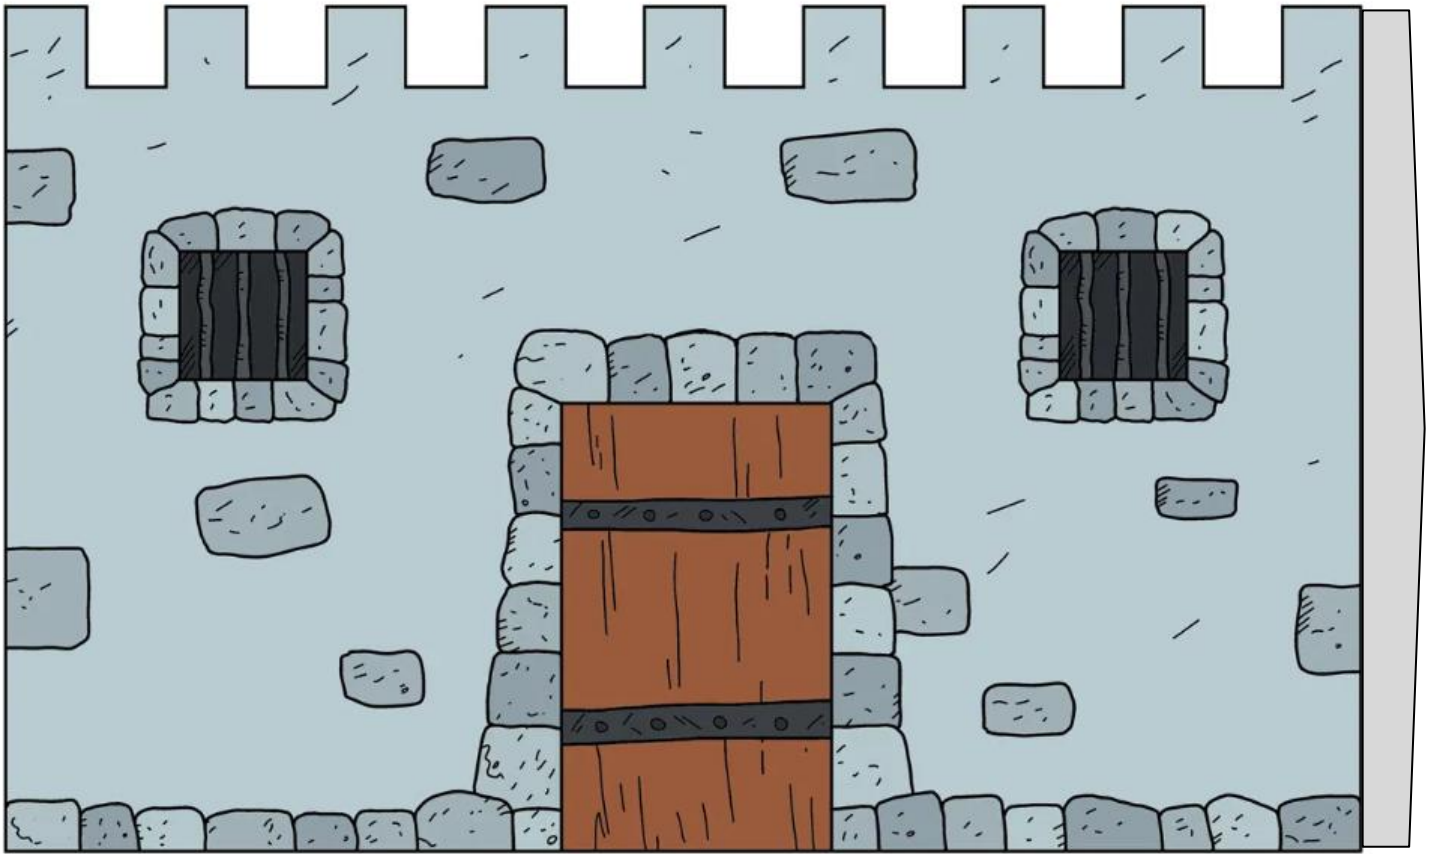

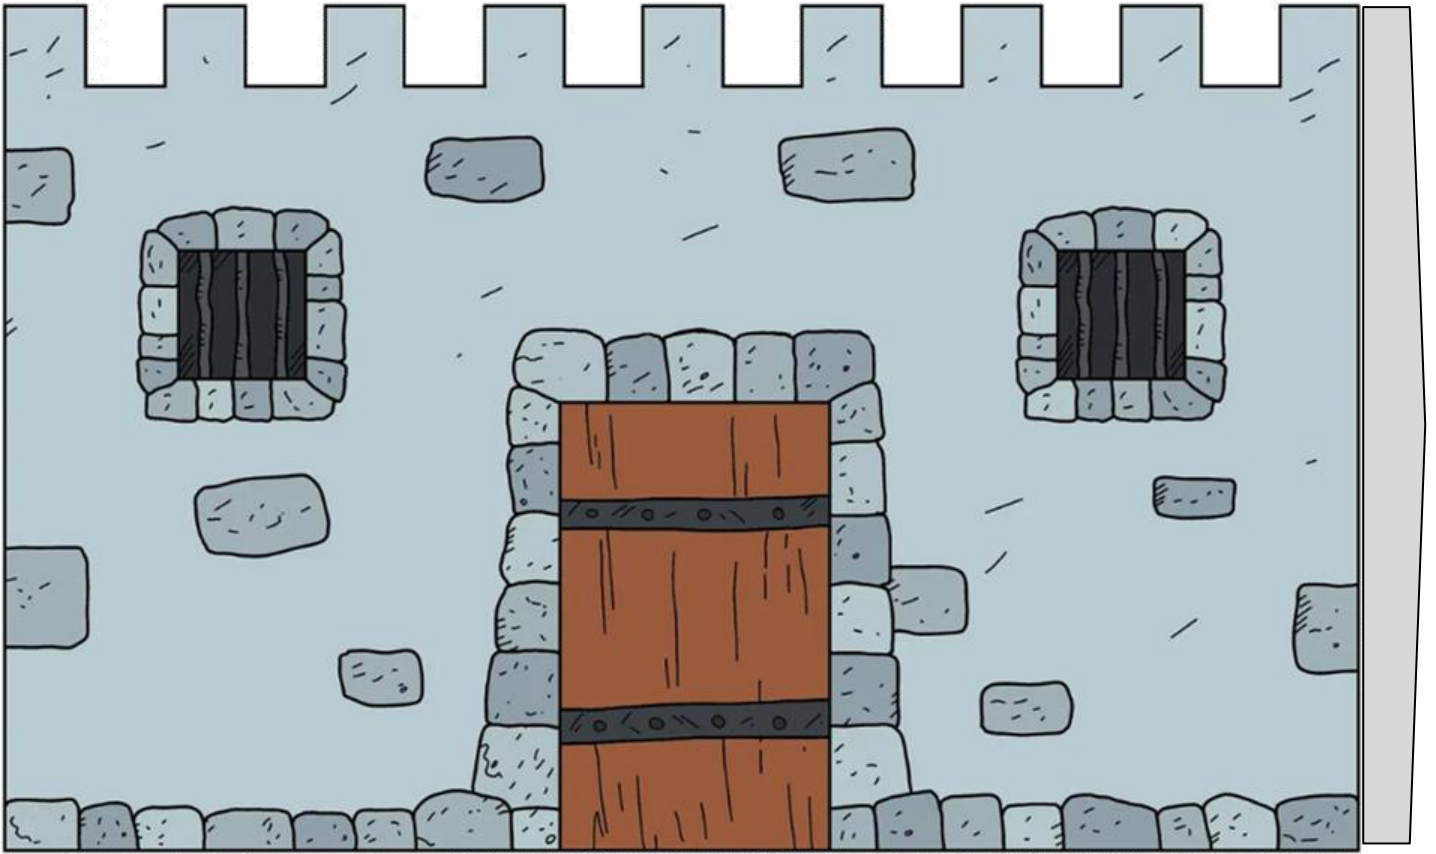

Activity:

- Cut carefully around the castle walls and castle towers. (You may want to stick on to card at this point if you haven't printed on card).
- For the castle tower, fold the tower along the grey lines and position the edges together; Secure with glue or tape on the flap (you can see it on the right hand side of the print out)
- Cut out the wooden platforms, and attach the square shapes to each tower. Next attach the long shapes folded on the grey lines to the top of the castle walls.
- Glue each castle wall to a tower using the grey flap.
- Ensure you castle is securely fixed (you may want to add additional sticky tape to reinforce some edges!)
